

P.D.Extension Copper Company

Capital \$2,000,000—Par Value \$1
Clifton-Morenci Mining District

PHELPS-DODGE & COMPANY, (THE DETROIT COPPER MINING COMPANY), THE ARIZONA COPPER COMPANY AND SHANNON COPPER COMPANY are producers of millions of pounds of the red metal annually and whose earning powers are undisputed by all who follow the copper mining industry. It is therefore unnecessary to comment upon the operations of these three immense organizations.

INTELLIGENT APPLICATION OF KNOWLEDGE AND EXPERIENCE gained by years of residence by the various interested parties in this wonderful district, has enabled them to acquire properties, it is believed, as valuable as the PHELPS-DODGE, ARIZONA COPPER

COMPANY or SHANNON COPPER COMPANY holdings. This statement may seem rather startling, but after organization plans have been completed, at which time this company will be in full ownership of thirty-eight claims, eighteen of which are patented, announcements of the most sensational character may be expected.

THAT A CONTINUATION OF THE WONDERFUL ORE BODIES of the three large companies now operating in this field extends into our claims is the belief of the experts and engineers who have been over the property. These claims are within the very heart of the producing area of the district and almost entirely surrounded by PHELPS-DODGE and ARIZONA COPPER COMPANY.

MR. W. P. WELLER, FOR YEARS CONNECTED WITH PHELPS-Dodge at Morenci, resigns in order to devote his entire attention to the affairs of the P. D. EXTENSION COPPER COMPANY.

THE TREASURY STOCK OF THIS COMPANY, ANNOUNCEMENT of the sale of which will shortly be made, will be offered at 75 cents per share.

APPLICATION WILL BE MADE FOR LISTING
ON THE NEW YORK AND BOSTON CURBS.

P. D. Extension Copper Company

W. P. WELLER, Trustee,
Morenci, Arizona.
